STUDENT IN HIGHER EDUCATION

GROOMING & IMPLEMENTATION

Colleges do play an important role in grooming both personally and professionally. The curriculum that set by them help to identify the student's potential. This session stressed the need of student's responsibility for their own learning as teachers have just become facilitators. The orientation stressed the need of personal grooming as it is going to affect student's personality. Keep the positives working and put negatives under improvement. Working on negatives and weaknesses will gradually groom personality allowing becoming more prominent and privileged in appearance and personality.
