| 4 | No. of Students attended | 150 |
| 5 | Chief Guest | DR K.Srinivasa Rao, Principal |
| 6 | Convenor | 1.Sri B.R.K.Kishore, Lect in Zoology |

Activity Details:

On 17th September 2024, SGK Govt Degree College, Vinukonda, observed National Deworming Day with the aim of promoting health and hygiene among students. The event was collaboratively conducted by the Department of Zoology and the College Health Center, reflecting the institution's commitment to the well-being of its students.

Objectives of the Activity:

- To raise awareness about the importance of deworming in maintaining good health.
- To administer Albendazole tablets to students as part of the national initiative to combat intestinal worm infections.

Activity Overview:

The event commenced with an informative session led by faculty members from the Department of Zoology, who discussed the significance of deworming, its benefits, and the impact of intestinal worms on health and academic performance. The faculty emphasized the need for regular deworming, especially in school-aged children and adolescents, to ensure a healthy and conducive learning environment.

Following the informative session, Albendazole tablets were administered to 150 students who participated in the event. The college health center staff, along with volunteers from the Department of Zoology, ensured that the administration process was conducted smoothly and efficiently.

Collaboration:

The medicine was supplied by the Community Health Centre, Vinukonda, which played a crucial role in facilitating this initiative. Their support in providing the Albendazole tablets ensured that all students could benefit from this essential health intervention.

Impact:

The activity not only provided students with necessary medication but also helped in raising awareness about the importance of regular deworming. Feedback from the students indicated a greater understanding of health issues related to intestinal worms and a commitment to maintaining their health.

Conclusion:

The observation of National Deworming Day was a successful initiative that underscored the college's dedication to the health and wellness of its students. By partnering with the Community Health Centre and engaging faculty and students in this important health initiative, SGK Govt Degree College is making significant strides in promoting health education
