Observation Made During The Community Survey

1. People are able to searching the information in the internet but someone unable to search the information comes under (poor in computer literacy)
2. Some of them are searching the information in the internet but they can't able to share the information to others (This will be under the category of good)
3. Some of them are searching information but it is relevant or not, useful or not, but the sharing information to the others (comes under the avarage)
4. Some of them are searching information, sharing to others, find the relevant information and it is very useful to them (comes under the excellence)

Suggestions To Be Given

1. Sharing the information one to another.
2. To suggest how to find the information to enable people.
3. Communicate to the people how to find the relevant information.
4. Usage of the internet.
5. To suggest how to create your own text and digital media.

Discussion And Conclusion

After this community survey the following conclusions are drawn:

1. As a result of this survey 80% of people are using the internet.
2. People say it is very useful to us.

3. People cooperate with us and give the information curiously.
4. By this survey unknown people know the information and are aware about the internet.
5. But this someone knows information but it doesn't share because unable to communicate.
