5	Chief Guests	Dr. K. Srinivasa Rao Principal
6	Convener	Sri BRK Kishore Convener of Health Center & HOD of the Dept. of Zoology

National Deworming Day was observed on 12-08-2025 at SGK Government Degree College, Vinukonda in collaboration with the Community Health Centre, Vinukonda. The programme was organized by the College Health Centre and the Department of Zoology with the objective of creating awareness about the importance of deworming and improving the health and well-being of students.

Programme Objectives

1. To create awareness among students about intestinal worm infections and their health effects.
2. To promote the importance of regular deworming for maintaining good health.
3. To encourage students to follow hygienic practices and preventive healthcare measures.
4. To support the national initiative aimed at improving the health and nutritional status of young people.

The programme was conducted on the college campus with the active participation of students and staff members. **Principal Dr. K. Srinivasa Rao garu** inaugurated the programme by administering the **Albendazole tablet** to students, symbolically marking the beginning of the deworming activity. He explained that intestinal worm infections can affect the health, nutrition, and overall development of students, and emphasized the importance of participating in such health initiatives.

Health staff from the **Community Health Centre, Vinukonda** guided the students about the benefits of deworming and the importance of maintaining personal hygiene and sanitation to prevent parasitic infections. As part of the programme, **Albendazole tablets were distributed to all**

students, and the students consumed the tablets under the supervision of the health staff and faculty members.

The programme helped in spreading awareness about preventive healthcare and encouraged students to adopt healthy habits. The cooperation between the college and the Community Health Centre ensured the smooth and successful implementation of the programme.

Programme Outcomes

1. Students gained awareness about worm infections and the importance of deworming.
2. Albendazole tablets were successfully distributed and consumed by all participating students.
3. The programme promoted health consciousness and hygienic practices among students.
4. Collaboration with the Community Health Centre strengthened community health initiatives.

Conclusion

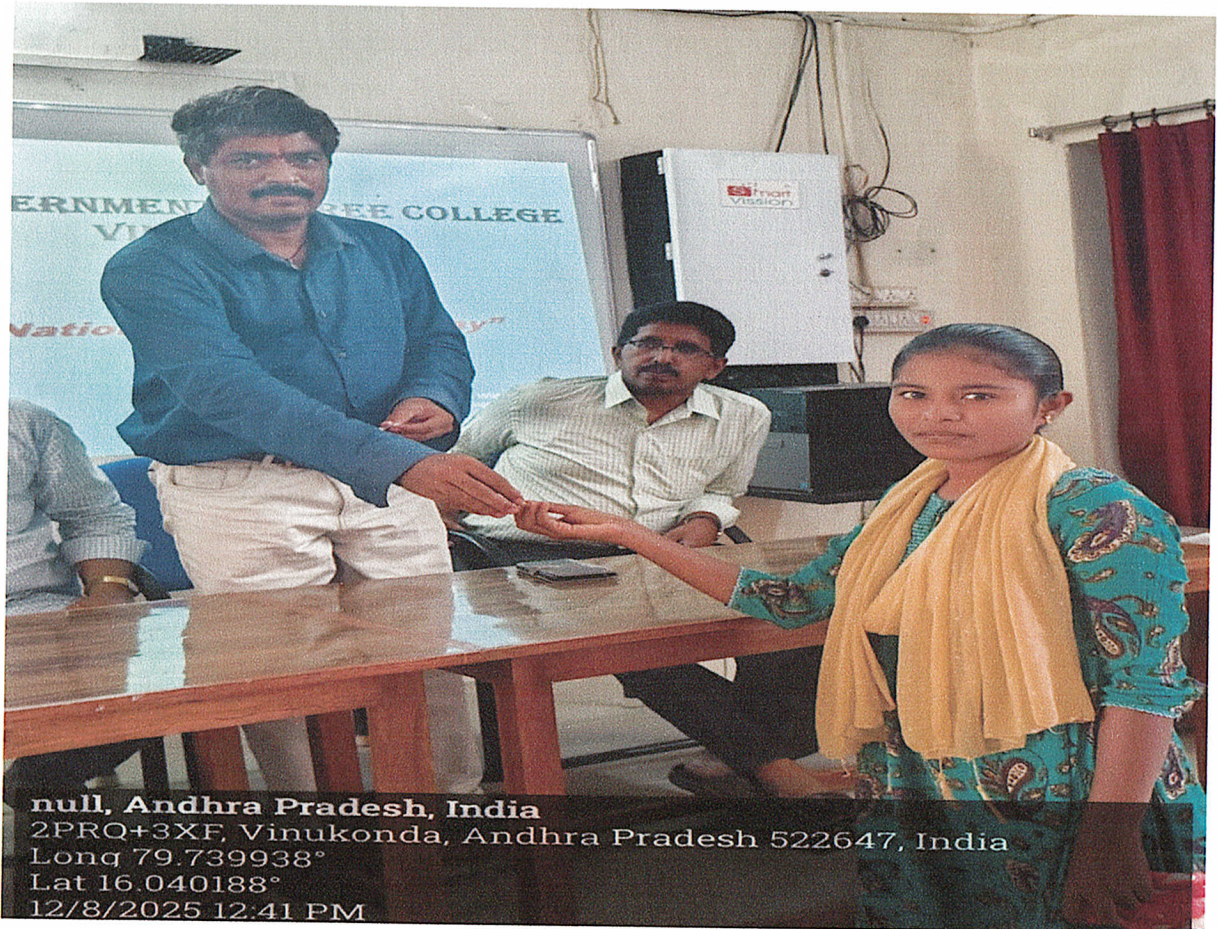

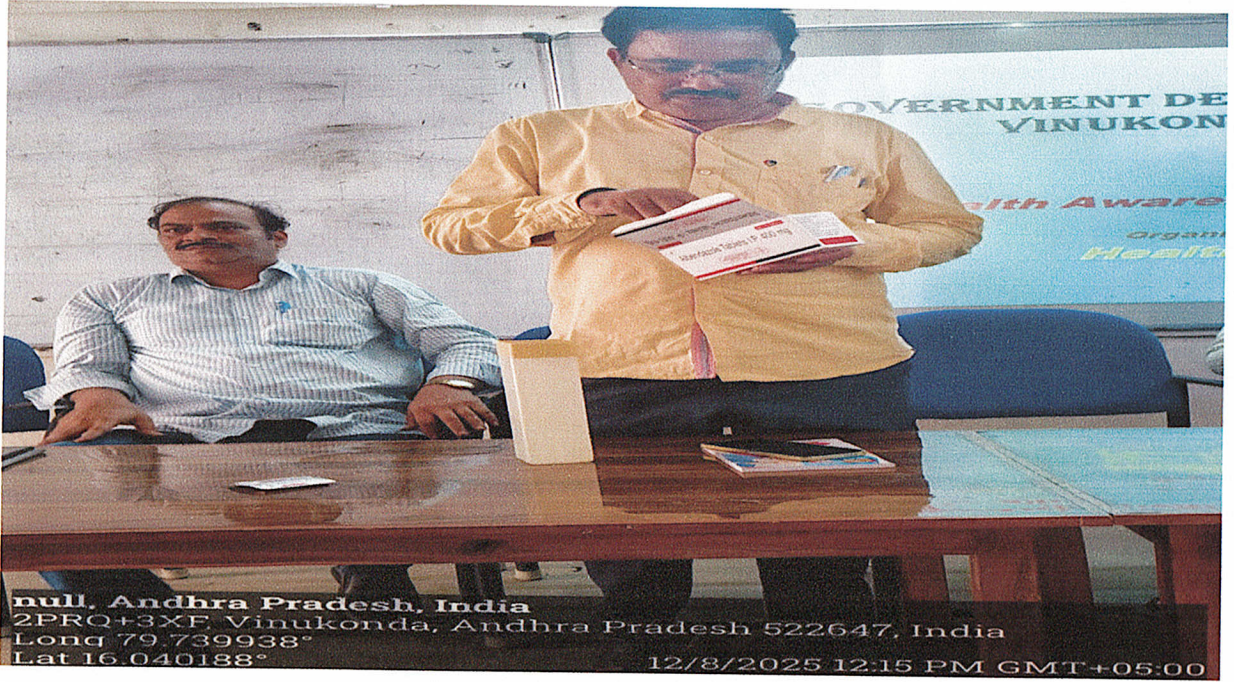

The **National Deworming Day Programme** was successfully organized at SGK Government Degree College, Vinukonda with the support of the Community Health Centre, Vinukonda. The initiative helped in improving awareness about preventive healthcare and ensured that students received the necessary deworming medication. Such programmes play a vital role in promoting healthy lifestyles and safeguarding the well-being of students.
