1. Sharing the information one to another.
2. To suggest how to find the information to enable people.
3. Communicate to the people how to find the relevant information.
4. Usage of the internet.
5. To suggest how to create your own text and digital media.

Discussion And Conclusion

After this community survey the following conclusions are drawn:

1. As a result of this survey 80% of people are using the internet.

2. People say it is very useful to us.

3. People cooperate with us and give the information curiously.

4. By this survey unknown people know the information and are aware about the internet.

5. But this someone knows information but it doesn't share because unable to communicate.
