ACKNOWLEDGEMENTS

The success and final outcome of this work required a lot of guidance and assistance from many people and I am extremely privileged to have got this all along the completion of my Community Service Project work. All that I have done is only due to such supervision and assistance and I would not forget to thank them. First of all I owe my sincere, heartfelt, thanks to the Almighty whose warm help was felt at times of difficulties, and at every moment of my life, especially during my research work.

I wish to express my sincere gratitude to my mentor **Smt.Ch.vijaya kalpana**, LECTURER - COMMERCE for his valuable suggestions, constant encouragement, continuous support and motivating guidance throughout the course of this work. It was a great pleasure for me to have a chance of working with a unique personality like him

I take this privilege to thank **Dr. K. Srinivasa Rao**, Principal, S.G.K Government Degree College, Vinukonda for his kind support extended through my course of work. I am sincerely grateful to **Rama Kishore K Behra**, Academic Cordinator of this college for his valuable suggestions, and cooperation extended during the course of my work. I am deeply grateful to **M. Jagadeesh**, **Co-ordinator**, Community service project for his earnest suggestions, and cooperation in accomplishment of the report. My special thanks to **All Faculty Members of S.G.K. G.D.C, Vinukonda** for their constant cooperation and encouragement.

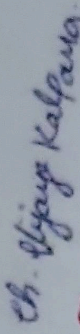

My deepest gratitude goes to my inspiring father **R. Manthou** and beloved mother **R. Bai Bai**. Nothing would have been possible without their support. Lastly, I thank one and all that directly or indirectly helped me in completing this Project work.

Abstract

In the part of community service project We take the survey in our city vinukonda In survey we noticed that 70% of people are insured and 30% of the people are non insured We are discussed with persons to notice the reasons behind there not take insurance. their response are good. th reasons are:

1. Uneducated
2. Lack of awareness
3. Financial problems and etc...

So, we appear the awareness on insurance Clearly and there responded positively to agree for tacking insurance in quick time period.

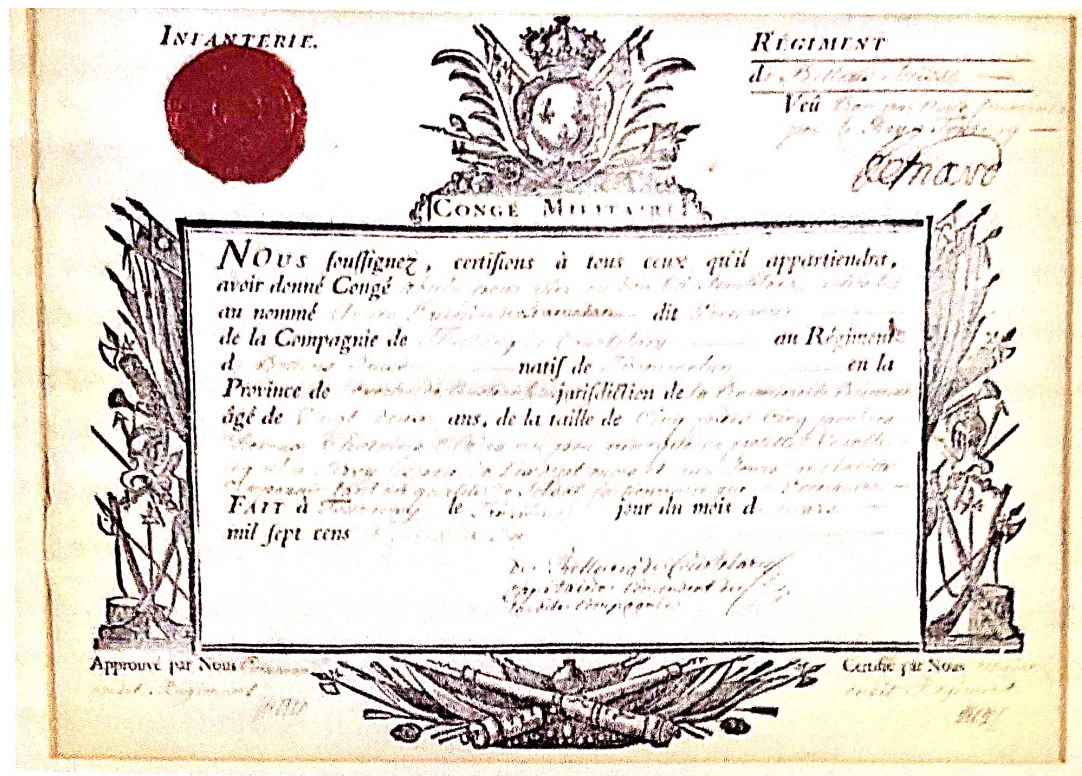

From this survey we proudly announced that the percentage of in our country will rapidly increase.

INSURANCE

Insurance is mean of protection from financial loss. It is a form of risk management, primarily used to judge against the risk of an uncertain loss. An entity that provides insurance to known as an insurer, insurance company, and Insurance carrier on the underwriter. A person on an entity who buys insurance is known as an insured assuring a guarantee and known relatively small loss in the form of payment to the insurance in exchange for the insurer's promise to compensate the insured in the event of a covered loss. The loss may it mat not be financial, but it must be reducible to financial forms and equally involves something in which the insured has an insurable interest established by ownership, possession, or preexisting relationship.

HISTORY

Insurance in its current form has its history dating back to 18 when an oriental Life insurance company was started by Antila Bharsar in Kolkata to cater to the needs of the European Community. The pre-independence era in India saw discrimination between the lives of foreigners(English) and Indians with higher premiums being charged for the latter in 1870, Bombay Mutual Life Assurance society became the first Indian Insurer. At the dawn of the 20th century, many insurance companies were founded. In the year 1912, the life insurance companies Act and the provident fund Act were passed to regulate the insurance business the life insurance companies Act,1912 made it necessary that the premium rate tables and pre periodical valuations of companies should be certified by an actuary. However, the disparity still existed as discrimination between Indian and foreign companies. The oldest existing insurance company in India is the National Insurance Company which was founded in 1906 and is still in business. The government of India issued an ordinance on 19 January 1956 nationalising the life insurance sector and life insurance corporations came into existence in the same year. The life insurance corporation(LIC) absorbed 154, Indian 16 non-Indian issuers and also 75 provident societies- 245 Indian and foreign insurers in 1970 with the general insurance Business Act was passed by the Indian parliament, and consequently, the General insurance business was nationalized with effect from 1 January 1973, 107 insurers were amalgamated and grouped into four companies, namely National Insurance co. Limited the New India Insurance.Ltd, the Oriental Insurance co. Ltd.the general insurance corporation of India was incorporated as a company in 1971 and it commenced business on 1 Jan 1973.

CHARACTERISTICS OF INSURANCE

The insurance has the following characteristics which are generally, observed in the case of life, marine, fire and general insurance.

- **SHARING OF RISK**

Insurance is a device to share the financial losses which might fall on an individual or his family on the happening of a specified event the event may be the death of the breadwinner to the family in the case of life insurances, marine-perils in marine insurance, fire in fire insurance and other certain events in general insurance, eg, theft in burglary insurance, etc. This loss arising from these events of the insured is shared by all the insured in the form of a premium.

- **CO-OPERATIVE DEVICE**

The most important feature of every insurance plan is the cooperation of a large number of persons who, in effect, agree to share the financial loss arising due to a particular risk that is insured. Such a group of people may be brought together voluntarily or through publicity or solicitation of the agent

- **VALUE OF RISK**

The risk is evaluated before insuring to charge the amount of share of an individual here in called, consideration or premium. There are several methods of evaluation of risks if there is the expectation of more loss, a higher premium may be charged so, the probability of loss is calculated at the time of insurance.

- **PAYMENT AT CONTINGENCY**

The payment is made at a certain contingency insured if the contingency occurs, payment is made since the life insurance contract is a contract of certainty, because the contingency, the death is the expiry of the term, will certainly occur, the payment is certain. In other insurances contracts, the contingency is the fire or the marine perils etc, may or may not occur. So if the contingency occurs, payment is made, otherwise no amount is given to the policy holder.

- **AMOUNT OF PAYMENT**

The amount of payment depends upon the values of occurred due etc particular insured risk provided insurance is there up to that amount. In life insurance, the purpose is not to make good the financial loss suffered. The insurance promises to pay a fixed sum on the happening of an event

- **LARGE NUMBER OF INSURED PERSONS**

To spread the loss immediately, smoothly and a cheaply large number of people should be insured. The cooperation of a small number of persons may also be insured but it will be limited to a smaller area. the cost of insurance for each member may be higher so it, maybe unmark able.

- **INSURANCE IS NOT GAMBLING**

The insurance services indirectly increase the productivity of the community by eliminating worry and

increasing initiative the uncertainty is changed into insurer promises to pay a definite sum for the damage of death.

- **INSURANCE IS NOT CHARITY**

Charity is given without consideration but insurance is not possible without premium. It provides security and safety to an individual and to society although it is a kind of business because in consideration of premium it guarantees the payment of loss. It is a profession because it provides adequate sources at the time of disasters only by changing a nominal premium for the service

IMPORTANCE OF INSURANCE

- **PROVIDES SAFETY AND SECURITY TO INDIVIDUAL AND BUSINESS**

Insurance provides financial support and reduces uncertainties that individuals and businesses face at every step of their lifecycle. It provides an ideal risk mitigation mechanism against events that can potentially cause financial distress to individuals and businesses for instance, with medical inflation growing at approximately 15% per annum even simple medical procedures cost enough to disturb a family's well-calculated budget, but a health insurance would ensure financial security for the family.

- **GENERATE LONG TERM FINANCIAL RESOURCES**

The insurance sector generated funds by way of premiums from millions of policy provider holderrs. Due to the lonhgt-term nature of these funds, these are invested in building long-term infrastructure assets that are significant to nation-building employment opportunities and are increased by big investments leading to capital formation in the economy.

- **PROMOTES ECONOMIC GROWTH**

The insurance sector makes a significant impact ofn the overall economy by mobilizing domestic savings. Insurance fees are accumulated capital into production investments insurance also enables mitigation of losses, financial stability and promoted trade eg commercee activities this result in sustainable economic development and growth.

- **PROVIDES SUPPORT TO FAMILIES DuRING MEDICAL EMERGENCIES**

The well-being of the family is important for all eg health of family members is thhe biggest concern for most from elderly parents to newborn children, medication and hospitalization play, an important role while ensuring well-being of families. rising medical treatment costs and soaring medicine prices are enough to drain your savings if not well prepared. Anyone can fall victim to critical illness(Such as stroke,heart attack etc).

- **SPREADS RISK**

insurance facilities mean the risk of loss from the insured to the insurer. The basic principle of insurance is to spread risk among a large number of people. A large population gets insurance policies and pays a premium to the insurer . whenever a loss occurs, it is communicated out of the corpus of finds collected from the millions of policy holders.

PRINCIPLES OF INSURANCE

- **PRINCIPLES OF UTMOST GOOD FAITH**

According to the principle, insurance is a contract based on faith. The insured and insurer must disclose all the material facts to each other if the insured hides any material fact from the insurance company and later on the insurer comes to know about it, then he can refuse to pay compensation. Failure to make disclosure of material fact by the insured makes the contract of insurance voidable at the discretion of the insurance.

- **PRINCIPLE OF INSURANCE INTEREST**

According to this principle, the insured must have an insurable interest in the subject matter of the insurance policy without interest taking an insurance policy is a gamble and fraudulent activity and the law does not permit it. In the case of life insurance, the insurable interest comes with the relation of insured with the person taking an insurance policy.

- **PRINCIPLE OF INTEGRITY**

According to this principle, insurance is not a contract for making a profit>the purpose of insurance is to bring back the insured in the same financial position as he was before the loss.

- **PRINCIPLE OF CONTRIBUTION**

It is corollary of the principle of identity according to this principle, if a person has taken more than one

insurance policy for the same subject matter then all the insurer will contribute the amount of loss and compensate him for the actual amount of loss separately he cannot claim total loss from each insurer the insurer contributes to the total loss in proportion to the amount assured by each

- **PRINCIPLE OF SUBROGATION**

According to this principle after paying the compensation, the insurer steps into the shoes of the insured in other words, when the insured is compensated for the loss or damage, to the property insured by her thing the right of ownership of such property passes on the insurer.

- **PRINCIPLE OF CAUSES PROXIMA**

According to this principle the causes or reason for the loss must be related to the subject matter of the insurance contract. If loss is due to some other cause then the insurer can refuse to pay the compensation.

- **PRINCIPLES OF MITIGATION OF LOSS**

According to this principle, the insured must take care of his property or subject matter of insurance in the same way as he would take care without taking the insurance policy. It is the duty of the insured to make a reasonable effort to make all available precautions to save the insured property.

SOCIAL EFFECTS OF INSURANCE

Insurance provides people from all walks of life and business a form of safety net and security. Because it offers protection it makes people feel safe and secure from loss and illness as well. Its benefits apply to so many aspects of life that can range from paying huge medical bills should you become seriously ill and

saving you from loss of income or having to file bankruptcy. Should a natural disaster happen that wipes your home or business people who carry the adequate amount of insurance coverage are not faced with the stress and worries of how they can recover from the catastrophe event? The social effects of insurance affect almost every part of our lives today it virtually controls the simple everyday life of what people want to do as it is required with most major purchases. A good example is a married couple who have found their dream home and are excited because it fits their budget only to find out when they call to get a homeowner insurance quote they cannot afford it spp insurance has crushed their dreams. Insurance can also cause hardships for so many people and keep them from driving a car because they cannot afford policy insurance can be costly and insurance companies gamble on the fact that the mass population will never use it. However, it's better to have insurance and not need it than to need it and not have it should something occur. Today, everyone is expected to carry insurance coverage is often frowned upon when they say no. Insurance today is woven into our social circles of daily living it protects us from loss, and has many benefits in most cases of our daily liver.

INSURANCE vs ASSURANCE

Generally, the terms insurance and assurance are considered the same thing but these two are not synonymous. These two are different in meaning assurance refers to a contract in which the sum assured is bound to be paid sooner or later in case of loss insurance the sum.

BASIS FOR COMPARISON	INSURANCE	ASSURANCE
Meaning	It refers to an arrangement, which provides cover for an event that can happen but not necessarily, like a flood, etc	It is a provision for coverage of An event, whose happening is certain, such as the death principle of certainty. A definite event
Based on	Principle of indemnity	Principle of certainty
Protect against	An anticipated event	A definite event
Type	General Insurance	Life insurance
Duration	Only for one year, renewable after a year	Long term, Running no of years

METHODS OF INSURANCE

According to the study of books of the chartered insurance institute, there are variant methods of insurance, two of which are

; } ? >

- **RE-INSURANCE**

It is an insurance that is purchased by an insurance company in the classic case, reinsurance allows insurance companies to remain solvent after major claims events, risk of major disasters like hurricanes and wildfires.

- **DOUBLE INSURANCE**

The situation in which some risk is insured by two overlapping but independent insurance policies. It is lawful to obtain double insurance, and the insured can make claim to both insurers in the event of a loss.

METHODS OF INSURANCE

- **LIFE INSURANCE**

It is different from other insurance in the sense that, here the subject matter of insurance is the life of a human being.

- **PROPERTY INSURANCE**

Under property insurance, if persons are involved against a certain specified risk. The risk may be fire,

money theft, etc.

- **MARINE INSURANCE**

It protected against the loss of marine perils. the marine perils are a collision with a rock, on the ship, captured perils.

- **LIABILITY INSURANCE**

The general insurance also includes liability insurance whereby the insureds are liable to pay the property damage.

- **FIRE INSURANCE**

Fire insurance comes with the risk of the fire in the absence of fire is insurance, the first work well increase not only for the individual but the society as well.

SOME INSURANCE COMPANIES ARE

- KOTAK Life Insurance
- National insurance company
- American Management Cooperation(AMP)
- SBI Life insurance company
- TATA AIG Travel Insurance
- ICICI Pre Life Insurance
- Apollo Munich Health Insurance
- Metlife Auto Insurance
- AVIVA Life Insurance
- Birla Sun Life Insurance

CONCLUSION

Insurance is a superior tool to other forms of savings as it provides protection, collective hearing of risk, assessment of risks, certainty factor, easy liquidity and above all the safest means of saving and investment.

- There are various insurance products

- Your needs will change according to your life stage
- Build and reconfigure your insurance portfolio
- Review your plan regularly

1. Does anyone in your family have an insurance policy ?

1. 70% people have insurance policy

2. 30% people don't have insurance policy

2. Are you paying the insurance premium monthly or yearly?

1. 51% people are paying insurance yearly

2. 49% people are paying insurance monthly

3. How much insurance premium are you paying for month?

1. 52% people are paying above 5000 rupees in a year
2. 48% people are paying below 5000 rupees in a year

4. What is the maturity of your insurance?

1. THERE ARE 33% OF 5 YEARS INSURANCE POLICY HOLDERS
2. 34% POLICY HOLDERS HAVE 10 YEARS PLAN
3. 33% POLICY HOLDERS HAVE 15 YEARS PLAN

5. ARE YOU TAKING INSURANCE FOR VEHICLES ?

1. 52% PEOPLE DON'T HAVE VEHICLE INSURANCE

2. 48% PEOPLE HAVE VEHICLE INSURANCE

6. HOW MANY FAMILY MEMNERS HAVE HEALTH INSURANCE?

1. 53% PEOPLE HAVE HEALTH INSURANCE

2. 47% PEOPLE DON'T HEALTH INSURANCE

7. TYPES OF INSURANCE-TERM LIFE INSURANCE OR ENDOWMENT POLICY?

1. 58% PEOPLE HAVE HEALTH INSURANCE
2. 42% PEOPLE HAVE VEHICLE INSURANCE

8. HAVE YOU ENCOUNTERED ANY PROBLEMS WHILE MAKING AN INSURANCE CLAIM ?

1. 72% PEOPLE DON'T HAVE ANY PROBLEMS IN
INSURANCE CLAIM
2. 28% PEOPLE HAVE SOME PROBLEMS IN
INSURANCE CLAIM

9. IS YOUR AGENT HELPING YOU?

1. 85% AGENTS ARE HELPING

2. 15% AGENTS ARE NOT HELPING

10. ARE YOU A MEMBER OF GOVERNMENT INSURANCE SCHEMES?

1. 82% PEOPLE ARE PART OF GOVERNMENT SCHEMES

2. 18% PEOPLE NOT PART OF GOVERNMENT SCHEMES
